OUR 50th YEAR <> © June 2009

**Our "product" is our knowledge & experience.
Put the power of the chemist to work for you!**

FDA reverses itself, Morphine products recently ordered off the market after 100 years, are now "medically necessary," until alternate drugs are developed. (To be continued in 100 years).

DHEA, Calcium, & Vitamin D can greatly increase spinal bone density in women, not as effective in men, or in hip bone density. No one should supplement DHEA without having their natural levels tested. Blood test are available through a physician and saliva test through pharmacies. Patients on DHEA/CA/D for 2 years had bone density improvement equal to patients on Biphosphonates (Fosamax, etc).

CELEBREX study, TV claims, questioned by The Center for Public Integrity: CPI asserts Celebrex, Naproxen, and ibuprofen unnecessarily put patients at risk. Try herbal KAPREX.

"Buy More; Save More." Grandmother said, **"Buy nothing, Save everything"**.

Treatment with PIMECROLIMUS (Rx) of facial dermatitis in children is safe & effective without the dangers of steroids (hydrocortisone). Seventy-four percent of treated patients cleared/almost cleared. Ten to 20% of children and 1 to 3% of adults are affected. –

British Journal of Dermatology.

POLYPILL shows promise. Fifty years ago any combination of drugs in a tablet/capsule was criticized as increasing chances of side effects. Now, a polypill of a blood pressure drug, a statin, and aspirin is claimed more effective than any of the drugs given alone or together. – Lancet.

"Special prices while supplies last." When all are sold, **is the price more?**

For Today's FAT LOSS: Just say NO to fructose which is 1.7 times as sweet as sucrose. Sucrose/sugar, decreases food intake; fructose increases food intake. The use of high fructose corn syrup (Karo) in soft drinks and junk foods may be the culprit in the rise in teenage obesity. A safe sugar alternative is XYLITOL.

Treat the Earth Well. It was not given to you by your parent, but loaned to you by your children.

Rocket fuel (perchlorate) found in powdered infant formula, especially formula made from cow's milk with lactose. <>> Dental disease increases risk of heart disease. (Always pondered how the age of a horse can be determined by looking in the mouth). <>> **ULORIC** (Febuxostat), new for chronic treatment of **gout**, more effective than allopurinol (Zyloprim). <>> Vitamin C may help prevent gout in men.

Adam blamed Eve, Eve blamed the snake, and the snake didn't have a leg to stand on.

There is no evidence that colonic cleansing or irrigation for "detoxification" is beneficial and may be harmful. Magnesium Glycinate Plus is healthy and an adequate daily detox. <>> The FDA, admittedly low in funds has spent how much to determine anyone 17 or older can buy Plan B (the morning after pill) without a prescription. Now, how much more will be squandered to determine everyone less than 17 has at least 1 friend older than 17, most often the boyfriend involved. <>>

K-9 Name of the Month: "P S I Love You."

Due to complications (cardiovascular risk & gastric irritation) from NSAIDs (Motrin, ibuprofen, Aleve, Naprosyn, CELEBREX*, etc). low dose 12 hour **MORPHINE** is safer, more effective and less expensive. See Morphine, column one. – Journal American Geriatrics Society, Aug 09.

*See comments on Celebrex, column 1

US Tuberculosis rate hits all-time low: CDC. <>>

Feline Name of the Month: "Butters."

WHAT DOES A MARRIAGE MEAN?

.... being together now and forever..

**RARE, UNUSUAL
AND
MADE TO ORDER
DRUGS**

Re: Autism;

Methylcobalamine 12.5 mg/ml/Folic Acid 5mg/ml.,
NASAL SPRAY.

Glutathionine 20%/Emu oil 10%, TOPICAL.

Peyronie's Disease:

Verapamil 15% topical.

Hemorrhoids:

Aloe Vera 3%/Vitamin E 100IU/ZnO 3% as Internal-
External Suppository used 1 at bedtime usually just 2
days. Above ingredients can be varied with alternate
analgesics, anti inflammatories, and antipruritics.

Hyperhidrosis:

Methenamine 5%/Benzalconium Cl 2%/Chlorhexidine
0.5% Aerosol.

Hyperhydrosis:

Glycopyrrolate 0.5% Roll-On.

Hyperhydrosis (preferred):

Clidinium 1% or 2% Roll-On

Topical deodorant of choice may be applied after the
chosen formula above.

(Botox injections are especially effective).

RESVERATROL 1% transdermal for dark circles and
age spots. Vitamin D may be added.

Testosterone eye drops. (dryness).

The economy is down but Vasectomies are up!

WYETH Caught AGAIN:

Recently Wyeth sought to prevent US pharmacies from
compounding ESTRIOLO (after their horse hormone
Premarin was proved unhealthy) while themselves
selling Estriol in European countries.

Now, the Justice Department and 16 states have entered
lawsuits against Wyeth claiming they overcharged
Medicaid millions of dollars. – Wall Street Journal.

NUTS ARE YOUR FRIENDS (Mine too). Try to eat a
handful of almonds, pecans, walnuts, macadamias, etc,
raw, not roasted in the AM before breakfast, again a
little while before dinner, and again before bedtime. The
healthy fats, nutrients, and antioxidants provide
nutritional needs and curb cravings. Another tip: Stop
eating in front of the TV.

Got a Craving for Junk Food; Forget Moderation: Just a
taste & you will overcome your craving. NO! One taste
will trigger more hunger 25 minutes later. **REAL AGE
BENEFIT:** Avoiding saturated and trans fats can make
your RealAge more than 4 years younger.

Occupational Hazard: A 31 year old woman with a
painful wrist, after an extensive medical examination,
determined her discomfort was a result of lifting her
new baby. <>> Correcting hormonal deficiencies can
eliminate addictions. <>> Calorie restriction is the
only proven method of life extension. <>> Just say
KNOW to drugs. <>> A new study published in THE
PROSTATE demonstrates that certain MEASLES
VIRUS STRAINS may be effective in treating advanced
prostate cancer, the leading cause of death among males
in the US. <>>

Do unto others then hide. (Jay, age 4).

Bio-identical hormones (Natural Hormones) proven
more effective and safer than synthetic replacement-
hormone therapy. –National Institute of Health Study.
Previously, Premarin (from horses) was the best selling
drug in the US with \$2 billion in annual sales for
manufacturer Wyeth. <>> Women who use oral
contraceptives have an increased risk of asthma if they
are of normal weight or overweight. Lean women do
not. Women on birth control also need 50 mg of vitamin
B-6 a day. <>> I am not a fan of most supplements due
to scams, false promises and failure of 95% of claims,
especially about weight loss. I do believe a few
supplements are helpful including: Fish oil or krill oil,
antioxidants, Vitamin D, Iodine (skin, hair, thyroid,
breasts), Glucosamine (joints), niacin (cholesterol),
DHEA (after testing), Valerian/hops (sedative) calcium
(bones), magnesium glycinate. (deep sleep). <>>

**"For A Limited Time." Is this the same as "Til Death
Do Us Part?"**

Sixty-five percent of patients with chronic pain report
delayed onset of sleep and frequent awakenings during
the night. Hope Labs "Sleep Naturally," a combination
of herbs to induce sleep is more effective than AMBIEN
and without side effects such as memory loss.
Magnesium Glycinate Plus by Rx Center enables deep,
restful sleep without side effects, except it enables
adequate bowel movements. <>> The blood-pressure
friendly breakfast: Whole-grain cereal sprinkled with
freshly ground flaxseeds. Walnuts and berries are also
blood-pressure friendly.

Let's make illegal guns, illegal.
