What is the root of all money?

The Question Persists; for example, if given a penicillin injection that maintains blood levels for 14 days, how many days will any allergic reaction last? Easy answer, "Good Question." Good answer, nobody knows, but definitely not for 14 days or whatever duration of treatment another medicine may have. Most reactions are local, topical, and only affect the area where the injection is administered. Treat as if an insect bite. Discovery consists of seeing what everybody has seen and thinking what nobody has thought. — von Nagypapolt.

Armour Thyroid is on permanent (6 months plus) backorder. A compounded version (also porcine) is available, from RX CENTER. Forest Labs the maker of Armour thyroid tried to "improve" their tablet without consulting a pharmacist, thus verifying one of our frequent claims: If pharmacists did not exist, necessity would require their invention. Fortunately, as stated in Exodus 20:30 in The Old Testament of The Bible, Pharmacy was civilizations first, thus the world's oldest profession. (No comparisons, please). **Because the response is patient specific, we do not advise initially changing to a product not made from THYROID, PORCINE, USP. and not trying a delayed release KONSTANT product.**

Rx Format:

Thyroid, porcine USP, x mg (15,30,60,90,120, etc)

Dispense capsules# _____

Directions: One by mouth ____X daily

(Armour cannot be specified).

Prescription Center accepts VISA, Master Card, & Discover at the Pharmacy & by telephone.

Does FLAXSEED have the same benefits as FISH OIL?

No, definitely not. Flaxseed contain ALA, fish oil EPA and DHA == big difference. Ground flaxseed can modestly reduce LDL and provides fiber. This fiber promotes gut health and can reduce estrogen levels in an estrogen dominant person. For greatest benefits, grind whole flaxseed immediately before use.
