Change is inevitable - except from a vending machine

"Robo-tripping" TO GET HIGH:

Dextromethorphan (DM), "Poor Man's PCP," is the most common over-the-counter drug abused by teens. Doses up to 200 mg produce a stimulant effect and hyperexcitability; 200 - 400 mg produce intoxication & hallucinations; 300 to 600 mg "out of body" state; 600 - 1500mg stupor, coma, seizures; larger doses can be lethal. - [PHARMACY TODAY](#).

Memory is what tells a man his wife's birthday was yesterday.

AKC NAMES POPULAR PUPS:

(In order). Labrador retriever, 17th consecutive year, Yorkshire terrier, German Shepherd, Golden retriever, Beagle, Boxer, Dachshund, Poodle, Shih tzu, Bulldog, for the first time since 1935, replacing the miniature schnauzer.

If a man takes no thought about what is distant, he will find sorrow near at hand. - Confucius

A reporter was interviewing a 104 year old woman: "and what do you think about being 104?" the reporter asked. She simply replied, "No peer pressure"

Cataracts, Left & Right:

After accounting for age, gender, diabetes, and other confounders, diets of high glycemic index foods were 77% more likely to cause cataracts than foods with the lowest glycemic index. The association was stronger in diabetics. (No sugar, white bread, white rice, white pasta, white potatoes).

Lutein, Zeaxanthin Vitamin E, may protect against cataracts - [Archives of Ophthalmology](#).

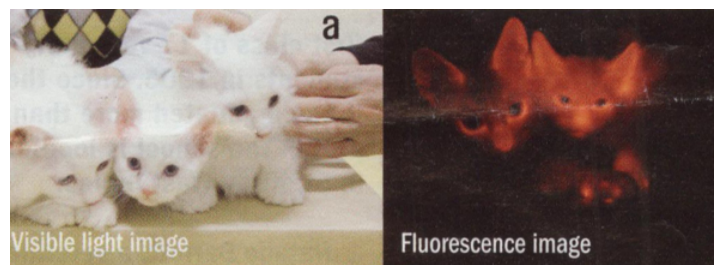

From the top five signs you're getting old:
#4. Adult diapers are actually kind of convenient

ARTIFICIAL SWEETENERS CONFUSE APPETITE:

Researchers speculate that over time, reduced-calorie sweeteners like saccharine, (Sweet & Low) aspartame, (NutraSweet) and sucralose (Splenda) condition the body to no longer associate sweetness with calories which may lead to overeating. - [Purdue University Study](#).

Children really brighten up a household - they never turn the lights off.

Centenarians who took 2 Grams of L-carnitine daily for 6 months had much less physical, mental, and over-all fatigue - [American Journal of Clinical Nutrition](#)

Kittens cloned to give off red fluorescent glow when exposed to ultraviolet light

A politician is a fellow who will lay down your life for his country.

Loose extra pound safely:

Flush false fat by banishing wheat. One of the most common food allergens and a major cause of false fat in many women is wheat. Wheat contains a protein called gluten, which is difficult to break down, absorb and assimilate.....all of which can trigger fatigue, depression, bloating and intestinal gas. Try substituting breads made with rice, millet, amaranth, quinoa, or soy and oat; crackers made with rice or potatoes; pasta made with rice, quinoa, or buckwheat; and cookies made with rice, oat or millet flour. You may find with this one simple step, you can digest your food properly, rather than letting it sit in your gut and wreak havoc with your digestive process and waistline!
